About Shodhgangaotri

About Shodhgangotri

Repository of Research in Progress/Synopses MRP's/PDF's/Emeritus Fellowship

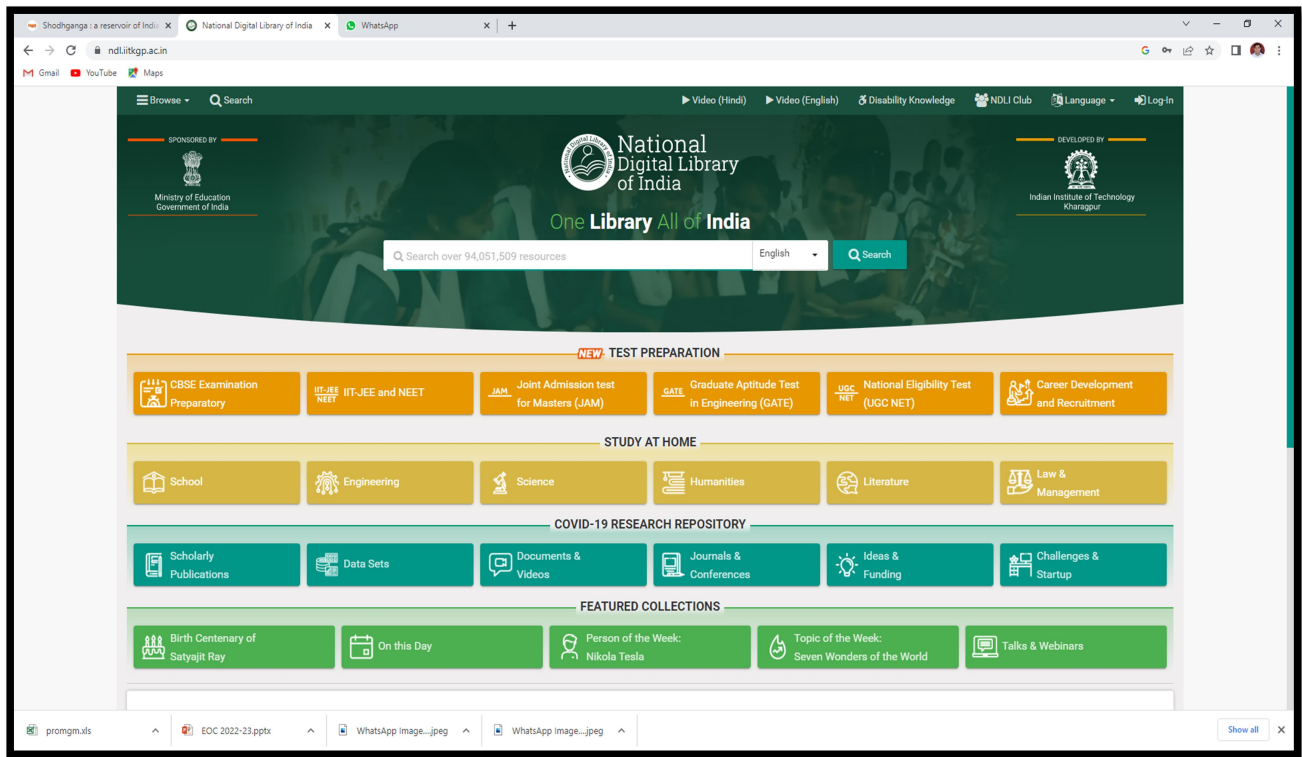

The word "Shodh" originates from Sanskrit and stands for "research and discovery". "Gangotri" is one of the largest glaciers in the Himalayas and the source of origination of the Ganges, the holiest, longest, and largest of rivers in India. The Ganges is the symbol of age-long culture, civilization, ever-aging, ever-flowing, ever-loving, and loved by its people.

Under the initiative called "ShodhGangotri", research scholars/research supervisors in universities are requested to deposit an electronic version of the approved synopsis submitted by research scholars to the universities for registering themselves for the Ph.D. programme now it is expanded to MRP's/PDF's/Emeritus Fellowship, etc. The repository on one hand would reveal the trends and directions of research being conducted in Indian universities, on the other hand, it would avoid duplication of research. Synopsis in "ShodhGangotri" would later be mapped to full-text theses in "ShodhGanga". As such, once the full-text thesis is submitted for a synopsis, a link to the full-text theses would be provided from ShodhGangotri to "ShodhGanga".

112 Universities/Institutes are contributing the Synopses to the Shodhgangotri.
